ergonomic workplace solutions

Black Box

More under desk **storage** that allows **more** under desk **space**.

Secure under desk storage within comfortable reach.

Lock It and Leave It. Enjoy peace of mind knowing your storage is protected in a less visible place that maximizes your space. Designed to integrate into - not stick onto - an existing desk, Black Box attaches to your desk's underside where needed for optimal ergonomic placement and access.

Love It. Enjoy a desk accessory that works for you -- adjusts with your preferred desk height, always in reliable, reachable position. The Black Box securely mounts to an 11" track, which makes it easy to pull out. No more straining or bending over to retrieve a bag or item on floor or in back of file drawer.

Key features:

- Practical solution to add storage to work desk.
- Mounted to the underside of your work surface
- Perfect for sit-stand desks
- Lock and key
- Strong, durable and lightweight.

Key benefits:

- Maximum personal leg room under workspace
- Large compartment space with a slim profile.
- Protects laptops and personal belongings in secure and less visible place.
- Can hold up to 50lbs / 22.6kg
