

ILS Sit-Stand Desk - Freestanding

The strong, reliable, freestanding, sit-stand desk, offering superior leg room.

Switch from standing to sitting with ease. The ILS Sit-Stand Desk lets you adjust your working position as needed, helping to avoid problems caused by prolonged sitting.

What makes ILS Sit-Stand Desks unique?

Making the move to sit-stand desks can bring significant health benefits to your workforce. Adapt's ILS Sit-Stand Desks are cleverly designed with the support beam at the back, providing extra strength while offering more leg room than traditional sit-stand desks.

With options to customize your desk by shape (straight or corner), width, color and finish, you can choose the perfect ergonomic desk solution for your business.

SAFE SENSE

The desks also use SafeSense™ technology, a unique, anti-pinch technology that detects collisions *before* they happen, helping to create a safer workplace.

Key features:

- Easy-to-use electronic power button
- Transitions from sit-stand position and vice-versa
- Available in four standard widths (1200mm/47.24", 1400mm/55.12", 1600mm/63" and 1800mm/70.87")
- Recessed horizontal support beam offers maximum space under the desk
- Straight and corner desks available
- Feet can be adjusted to add stability to uneven flooring
- Supports all your technology needs
- Includes unique SafeSense™ anti-collision technology for employee safety

Key benefits:

- Improved focus and concentration
- Ergonomic design promotes health and well-being
- Flexibility to adjust your working position to suit each task
- SafeSense™ technology helps avoid trapped fingers and other safety hazards
- Can be customized to your environment
- More leg room than traditional desks
- Memory function stores settings for multiple users – ideal for hot desking/hoteling environments
- Future proof design

- 1 Worksurface height can be adjusted between a range of 609.6mm-1270mm/24"-50" (from the floor), to create comfortable working positions for people of virtually any height.
- 2 Cable spine and cable basket keep wires tidy and easy to access.
- 3 Recessed horizontal support beam adds strength *and* increases usable space under the desk.
- 4 Strong, sturdy legs can support weight of up to 100kg/220lb (2 leg / straight desk) or 150kg/330lbs (3 leg / corner desk).

Create a safer workplace

SAFE SENSE

Adapt ILS Sit-Stand Desks now come with SafeSense™ proximity sensing technology as standard.

SafeSense detects a possible collision before it occurs. If a hazard is detected during motion, an alarm sounds to notify the user and the movement cuts-out, until the obstruction is removed.

This helps reduce injuries such as trapped fingers and prevents collisions with objects above or below the desk such as monitors or drawers.

The digital controller can be used to memorize up to three user positions, making it easy to accommodate multiple users.

Environmental design

At Adapt we carefully consider environmental factors in every stage of our product cycle. This includes selecting environmentally friendly materials during design, manufacturing, packaging and shipping.

Adapt aftercare

Research shows that to achieve the full benefits from ergonomic products, employees should be trained to use them properly. As part of our service, training is available to ensure you make the most of your furniture and accessories.

Superior products

Every Adapt product is made from the highest quality materials and goes through rigorous testing before it becomes available on the market. That's why all Adapt manufactured products come with a lifetime guarantee, giving you peace of mind.
