

Sustainability statement – SpaceArm monitor arms

At Adapt Global Group, we strive to follow sustainable practices in the design, manufacture and distribution of our products and solutions. This helps our customers minimise their impact on the wider environment, reduces costs and contributes to their long-term prosperity. Many of our solutions support environmental accreditations such as LEED.

Sustainable design

Our SpaceArm monitor arms are designed with sustainability at their core. They have the potential to be reused, repurposed and recycled. Their flexible design means they can be upgraded and reconfigured, without needing to change the whole solution. For example, if you need to upgrade to a lighter monitor, you can swap out the gas strut component for another one that supports the correct weight. You can also easily add more monitor arms to the system as your needs evolve. This flexibility not only protects your investment by extending the shelf life of the product, it also reduces waste.

Environmentally friendly

Our SpaceArms are assembled at local distribution centres, helping to reduce carbon footprint. They are manufactured using recycled materials wherever possible. We strive to ship in the minimum of packaging and in the most environmentally efficient ways available to us.

Source Material	Component	Recycled Content of Source Material by Weight *	Recyclable after use
Aluminum ADC 12	Aluminium Casting SpaceArm	100%	100%
Cold Roll Sheet	Metal Stamping	100%	100%
Aluminum PCT/P1020	Aluminium Extrusion, SpaceArm	99.7%	100%
Nylon, POM, ABS	Bushings in SpaceArms and SpaceArm cap	0.0%	0.0%
Resin Color	Powder, SpaceArms	90%	0.0%

Component Name	Material Name	Is it recycled material? If yes %	Is it recyclable after use?
Cardboard	Boxes	Yes 30%	Yes
Pulp Tray	Newspaper	Yes 100%	Yes
Poly Sheet/bag	Low Density Polyethylene	Yes 30%	Yes

Lifetime guarantee

As part of our commitment to offering sustainable solutions, we offer a Lifetime Guarantee on our SpaceArm products. This means that if there is ever a fault found with the quality of the product, we will repair or replace it free of charge.

Product continuity

Further to our guarantee on materials and workmanship, we guarantee to maintain continuity of product supply. This means that you will be able to source the same products or component parts from us at any time in the future, maximising the value of your SpaceArm products.
